

Regulations for Faculty Promotion Eligibility of the College of Engineering

Approved at the 1st College Faculty Evaluation Committee Meeting of the 1999 academic year on September 1, 1999

Amended at the 3rd College Faculty Evaluation Committee Meeting of the 2007 academic year on December 25, 2007

Approved at the 4th College Faculty Evaluation Committee Meeting of the 2015 academic year on March 9, 2016

Approved at the 372nd University Faculty Evaluation Committee Meeting on March 24, 2016

Approved at the 3rd Special College Faculty Evaluation Committee Meeting of the 2015 academic year on June 8, 2016

Approved at the 374th University Faculty Evaluation Committee Meeting on June 16, 2016

Approved at the 4th College Faculty Evaluation Committee Meeting on March 7, 2018

Approved at the 387th University Faculty Evaluation Committee Meeting on May 3, 2018

1. Promotion based on Specialized Publication

An assistant professor applying for promotion to associate professor must meet the following requirements:

- (1) Publish at least five papers in SCIE journals as “the first author (in addition to the student author)” or “corresponding author” in the recent five years; or publish three to four papers in SCIE journals as the first author or corresponding author, and conduct three or more general research projects of the Ministry of Science and Technology as the principal investigator within five years.
- (2) A representative publication must be published within three years on behalf of National Sun Yat-sen University and must not be an extended piece of the applicant’s dissertation.
- (3) One of the submitted representative or reference publications must be written by the applicant other than the student author mentored by the applicant. The aforementioned student is required to study at National Sun Yat-sen University.

An associate professor applying for promotion to professor must meet the following requirements:

- (1) Publish at least five papers in SCIE journals as “the first author (in addition to the student author)” or “corresponding author” in the recent five years.
- (2) A representative publication must be published within three years on behalf of National Sun Yat-sen University and must not be an extended piece of the applicant’s dissertation.
- (3) One of the representative publications or at least one-third of the reference publications submitted must be written by the applicant other than the student author mentored by the applicant and the postdoctoral research fellow. The aforementioned student and the postdoctoral research fellow are required to study/work at National Sun Yat-sen University.

Above regulations were translated from the original Chinese. In the event of any discrepancies between the two versions, the Chinese always takes precedence.

2. Promotion based on Technical Report (the following two requirements must be met)

- (1) Receive the Outstanding Teaching Award (in the industry-academia research category) or Excellence in Industry-Academia Research Award of National Sun Yat-sen University; or at least score 24 points for research project subsidies and other relevant achievements specified in A2 of Faculty (Assistant Professor or Higher) Promotion Scoring Form (Final Review): Technical Application of National Sun Yat-sen University within seven years at the current rank.
- (2) R&D outcomes of the representative technical report shall be presented on behalf of National Sun Yat-sen University within three years.

3. Promotion based on Teaching Research Publication (the following three requirements must be met)

- (1) Publish at least three papers in SCIE journals as “the first author (in addition to the student author)” or “corresponding author” in the recent five years; or publish two papers in SCIE journals as the first author or corresponding author, and conduct two or more general research projects of the Ministry of Science and Technology as the principal investigator within five years.
- (2) Receive the Outstanding Teaching Award (in the teaching category) or Excellence in Teaching Award of National Sun Yat-sen University; or nominated by the College of Engineering for Excellence in Teaching Award of National Sun Yat-sen University at least twice at the current rank.
- (3) The applicant shall be “the first author (in addition to the student author)” or “corresponding author” of the representative teaching research publication which shall be presented on behalf of National Sun Yat-sen University within three years. The aforementioned student is required to study at National Sun Yat-sen University.
