

# **College of Engineering**

## **Regulations for the Number of Students per Supervisor in Master's and PhD Programs**

Issued by the 3rd Heads Meeting on November 2, 2006, School Year 95.

Approved by the 110th University Academic Affairs Meeting on December 28, 2006, School Year 95.

Amended by the 7th Heads Meeting on November 2, 2016, School Year 105.

Approved by the 152th University Academic Affairs Meeting on May 31, 2016, School Year 106.

- I. The number of students (excluding students from the graduate study in industry and the program for international students and doctoral students who do not hold a Master's degree) per supervisor in master's and PhD programs shall not exceed 12 students within two years.
- II. When places remain available in master's and PhD programs once Article 1 of the present regulations is implemented, the various departments shall self-establish regulations to satisfy these places. However, these regulations must be submitted for reviews in the college heads meetings.
- III. The present regulations shall be implemented following approvals of college heads meetings and academic affairs meeting. The same procedure shall be carried out when amendments are to be made.
